Warſaw, June 20. *N. S.*

THE Prince de Radzivil, Great Chancellor of Lithuania, is arrived here from Saxony with an account, that King Auguſtus had reſolved to ſet out very ſoon from Dreſden, in order to return into this Kingdom, where his Preſence is very much wanted. The Saxon Troops continue to raiſe great Contributions in the Palatinates where they are quarter'd, and the Diſcontents of the Nobility and People upon that account are very much encreaſed of late. The Great General of Lithuania has deſired ſeveral of the Senators to meet him at Wilna, in order to conſider of proper Meaſures to put a ſtop to the Exactions of thoſe Troops in the Great Dutchy. There has been for ſome time a great Scarcity of Proviſions at Caſimir, Cracow, and other Places of this Kingdom, for which reaſon Guards have been poſted on the Frontiers towards Pruſſia, to prevent the carrying of Corn into Foreign Countries. They write from Leopol, that the Palatin of Kiovia, and ſeveral other Poliſh Noblemen who had followed King Staniſlaus into Turky, were arrived at that Place, and had been receiv'd with great Civility by the Archbiſhop, and the Great General of the Crown. They were accompanied by a Tartarian Miniſter, who had Directions to thank King Auguſtus for granting their Pardon, and receiving them into Favour at the Requeſt of the Han. Letters from Podolia bring an account, that the Palatin of Mazovia, Ambaſſador of the Republick to the Ottoman Port, had left Conſtantinople, and was upon his way to this City. We are informed, that the Turks have conſiderably reinforced their Troops on the Frontiers, and that the Fortifications of Chocim are ſtill carried on with great diligence.

Vienna, July 4. *N. S.* On the 29th paſt Monſieur de Huldeberg, Envoy of the Elector of Brunſwick, had an Audience of their Imperial Majeſties, in which he notified the Death of the Electreſs Dowager. There have been frequent Councils held of late upon the preſent Conjuncture of Affairs, and the Emperor has conſtantly aſſiſted at them in Perſon. Count Guttenſtein, Commander in Chief in Bohemia, is arriv'd here from Prague. The Prince of Heſſe Darmſtad is preparing to ſet out for Italy, in order to take Poſſeſſion of his Government of Mantua. The Proteſtants in Hungary have ſent Deputies to this Court, with a Complaint, that the Churches, which the Turks had given them leave to build, have been taken from them, but it is doubted their Remonſtrance will have but little Effect, ſince the Emperor has lately ordered all the Proteſtant Families, which ſettled there ſince the laſt Troubles, to leave the Country. Letters from Conſtantinople bring an account, that the King of Sweden had reſolved to ſet out from Demotica about the middle of this Month, but his Majeſty had not declared whether he would return home through Poland, or the Hereditary Dominions of the Emperor.

Franckfort, July 12. *N. S.* On the 5th Inſtant the Prince of Nieubourg, Great Maſter of the Teutonick Order, and Coadjutor of Mayence, arrived here from Breſlaw, and on the 9th he ſet out for Ems, where he intends to drink the Waters. The Princes of Taxis and Lobcowitz went from hence Yeſterday to Schwalback. We are informed, that King Staniſlaus is arrived at Deux-Ponts, where he has been received with great Honours by Baron Stralenheim, Governour of that Dutchy. Letters from Baden bring an account, that Prince Eugene and Mareſchal Villars were expected there before the end of this Month. The Conferences between the Plenipotentiaries of the Emperor and the moſt Chriſtian King were continued with great Aſſiduity. Thoſe Miniſters had received Expreſſes from their reſpective Courts with fuller Inſtructions than had been given them at their departure to the Congreſs. They write from Zurich, that an Aſſembly of the Swiſs Cantons was to be held on the 15th Inſtant at Frauenfeld.
